<b>HAZARDS AFFECTING COASTAL WATERS</b>
<ul style="list-style-type: none"> <li>• Under the influence of Typhoon HENRY, a Gale Warning is in effect for the seaboard of Northern Luzon and eastern seaboard of Central Luzon. For more information, refer to <b>Gale Warning #6</b> issued at 5:00 AM today.</li> <li>• In the next 24 hours, HENRY may bring <b>moderate to rough seas</b> over the eastern seaboard of Southern Luzon (1.2 to 3.0 m). <b>These conditions may be risky for those using small seacrafts.</b> Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.</li> </ul>
<b>TRACK AND INTENSITY OUTLOOK</b>
<p>Typhoon HENRY will continue moving generally northward throughout the weekend before turning north northeastward on Monday. On the track forecast, the typhoon may pass very close or make landfall in the southern islands of the Ryukyu Archipelago tonight and exit the Philippine Area of Responsibility (PAR) tonight. A slight intensification may still take place as HENRY leaves the PAR region (i.e., over the East China Sea).</p>

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
